If you have already took those courses during any semester the substitution form (it can be found in Faculty's Student Affairs Office) should be filled and signed by Minor program coordinator. Some courses of minor program can also be substituted to your Major program, if the Major program advisor accepts as Non-departmental Elective.
- The students have right to freeze maximum 2 (two) semesters due to any circumstances like course overlaps with major programs or health issues. Please consult with the Minor program coordinator whenever you have such problems. For Erasmus leave, students do not need to do any paperwork for Minor Program.
- The students have also right to continue their minor program for maximum 2 (two) semesters after the graduation of Major program.
